Muhammad Saeed Liaqat

Software Developer

Cottbus, Germany | saeedliaqat811@gmail.com | LinkedIn | GitHub

Software developer and master's student seeking Werkstudent and part-time IT roles in Germany. I build responsive web interfaces and work on Node.js and PostgreSQL backends.

EXPERIENCE

Software Developer, Globaq (remote) | Sep 2025 - Oct 2026
Built and deployed a responsive React single-page application with prerendering. Integrated contact and WhatsApp enquiry paths and maintained the frontend and technical SEO after launch.

Intern, JRAR | Sep - Oct 2024
Built responsive components with HTML, CSS, JavaScript and React and helped integrate APIs, including the OpenAI API.

EDUCATION

M.A. in Transformation Studies | Oct 2026 - Present
BTU Cottbus-Senftenberg. Focus on digital transformation.

BS in Computer Science | Nov 2021 - Aug 2025
Mirpur University of Science and Technology. Focus on software development and artificial intelligence.

SELECTED PROJECTS

Globaq company website | Live website
Company service site for a Saudi quality-assurance and ISO consultancy. I was responsible for frontend development, deployment and ongoing improvements.

Learnify, collaborative final-year project | Source on GitHub
Built the Node.js and PostgreSQL backend for an AI-powered quiz application, including registration, authentication and password hashing. Learnify received Best Final-Year Project recognition (Aug 2025).

SKILLS & LANGUAGES

React, Next.js, Tailwind CSS, HTML, CSS, Node.js, REST APIs, PostgreSQL, Python, FastAPI, Git, GitHub and Vercel.
German: B1 (intermediate). English: C1 (IELTS Academic, 2025).

SELECTED COURSE CERTIFICATES

Udemy: Data Science, Machine Learning, DL, NLP Bootcamp (Nov 2025), Web Development Bootcamp (Aug 2025), and Data Structures & Algorithms using C and C++ (Apr 2025).

VOLUNTEERING

The Paradigm Association: helped raise funds for families in AJK (Jul 2026) and helped set up the organisation's website and social media presence (Sep - Dec 2023).
